Plea of Self-defense Wins
Acquittal for Green
Murder Charge

Vernon Paul Green, charged with murder in connection with the fatal shooting of Leo E. Green, was found not guilty by a jury last night. The trial was under way since Thursday and was of additional interest because the presiding judge was removed to the witness stand during the hearing and testified as to his report to the defense.

It was the defense contention presented by Attorney Joe King that Green acted in self-defense and that King first fired at the window of a taxicab concerned the effect of pistol on glass. It was claimed that the shooting was the culmination of an alteration between Green and King over the former's wife, who is asserted to be white.

The prosecution, directed by Dist. Atty. Frampton, charged that Green appeared at King's home on the night of June 26, and fired several shots at King, which resulted in his death at the Georgia-street Hospital the following day.

Forty-seven to Receive Degrees

A graduating class of forty-seven will receive medical degrees Friday evening at the thirty-second annual commencement exercises of the College of Osteopathic Physicians and Surgeons of Los Angeles. The exercises will be conducted in the day Morning Clubhouse.

Dr. Walter F. Dexter, dean of Whittier College, will address the graduates and the degrees will be conferred by Dr. W. Van Buren Gendine, president of the college.

The Los Angeles College of Osteopathic Physicians and Surgeons is the second oldest osteopathic college in the United States. It was founded in 1896 and incorporated under the laws of California as a nonprofit-making institution by the California Osteopathic Association. Since 1914 it has qualified its graduates for the unlimited practice of osteopathy, medicine and surgery.

LECTURE COURSE ANNOUNCED

A course of lectures in interior decoration will be given this summer at Barker Brothers under the auspices of the University of Southern California as part of the summer schedule of university courses.

S. C. It will include sixteen lectures by Dr. Harry C. Barker, president of the Barker Brothers, Inc., and will be held in the new Mission Auditorium.

The lectures will be given from 7:30 p.m. on Tuesdays and Thursdays from the 16th inst. to

HOOVER VICTORY ASSURED BY BALLOT ON CONTESTS

First Test of Secretary's Strength
Shows 676 Delegates Against
Coalition of Defeatists

BY KYLE D. PALMER
"Times" Staff Representative

KANSAS CITY (Mo.) June 13. (Exclusive)—Under conditions that hourly promises the elimination of serious party differences, the Republican National Convention today gave the Hoover forces a decisive victory in the delegate seating contests, issued a blistering challenge to Al Smith and the Democrats—and adjourned until tomorrow when the platform committee announced its inability to present a report to the second session scheduled for tonight.

Division on the character of the farm relief plank to be embodied in the enunciation of Republican policies and purposes prevented an agreement on the platform, although a majority of the committee are satisfied with the tentative proposal drafted by the subcommittee.

Thirteen of the fifteen members of the subcommittee are in agreement on the farm plank, but a committee on platform, which was required in a decision to postpone presentation of the platform in the hope that a unanimous recommendation can be made.

WILL LEAVE OUT 'OR'
This, however, in the opinion of Senator Borah, is unlikely despite the fact that many leading agricultural leaders are identified with the McNary-Haugen bill.

The ability of the convention to obtain adoption of any reasonable proposal on farm aid is conceded by all factions, as is known that Secretary Hoover and his forces desire every attempt made to reach a satisfactory solution.

The actual deadlock between three or four members and the majority of the committee was caused by the "or" in the farm plank outlined in the McNary-Haugen plan—vetoed by President Coolidge.

It is certain that in test vote for "or" and against the regularization of the "or" will be equalized by the convention.

BUTLER OPPOSES
Unanimous, excepting the subcommittee on the subject of prohibition, but a possibility that the wet and dry issue may reach the convention floor is indicated in the unanimous demand of the dry plank accepted by the convention.

SHOULD A PLAIN "OR"
It is characteristic of this convention that Hoover strode to certain victory over the trials of a committee on platform in which he was seated on the floor.

Standing there, a slight glibish smile, Mr. Coolidge laid aside cold; seated the Hoover delegates; and flowers should be sent to the house and obsequies will be private.

After weeks and months, this array of politically enshrouded Senators, Vice-Presidents, Pullman car magnates and blood-stained war heroes have not been in better shape.

With an all-night session of the committee in prospect, hope is expressed that the platform will be

G.O.P. PLATFORM DRAFTED; FIRM DRY PLANK ADOPTED

Committee to Submit Document to Convention Today With Prospect of Fight on Farm Issue

KANSAS CITY, June 13. (P)—After a protracted fight the resolutions committee of the Republican National Convention completed work late tonight on a party platform which will be submitted on the convention floor for action tomorrow. As approved the plank dealing with farm relief embodies no reference to the equalization fee provisions of the twice vetoed McNary-Haugen bill, while the plank on prohibition declares for specific enforcement of the Eighteenth Amendment.

These two questions proved the great obstacles encountered by the committee in its long sessions and supporters of the equalization fee principle announced that they propose to carry their fight to the convention floor for final determination.

ALLIED HOOVER FOES MAY OUT

FOUR CANDIDATES TO DECIDE THEIR COURSES TODAY

INFORMAL CONFERENCE HELD WITHDRAWAL

NEW YORK TO BE FOR HOOVER ON FIRST BALLOT

KANSAS CITY, June 12. (AP)—The four allied Presidential candidates—Watson, Goff, Lowden and Curtis—will decide tomorrow whether they will go through with nomination speeches or have their nominations withdrawn.

Informal conferences were held yesterday at Senator Watson's home but a decision was deferred until tomorrow.

The action is contemplated in view of the decided trend of the convention for Hoover. The vote today on the adoption of the platform is the main point of the meeting.

The New York delegation came in tonight to decide on casting its ninety votes for Hoover on the first ballot.

The first ballot in a caucus meeting, the delegation having seventy-seven votes for Hoover, the remaining members of the Republican delegation, mostly sightseers, were not in a great deal of trouble and trouble today. And there were more of them.

The New York delegation came in tonight to decide on casting its ninety votes for Hoover on the first ballot.

Hoover managers now say that he will receive more than 700 votes, and that he will be nominated. They have nominated him some time ago, and the nominating speech is not too lengthy. After the platform is adopted, all delegations will be asked to vote in the field of Vice-Presidential candidates.

NEWSPAPER DIRECTORS MEET

BROCKVILLE (Ont) June 12. (AP)—Winfield B. Sifton, 20 years of age, son of Clifford Sifton and a rector of the Armada Corporation, which controls a chain of western newspapers, died today.

Bennett Finds Encouraging Signs at Convention

Hoover's Aim Declared to be Service of Nation

Rap Taken at Politicians in Republican Arena

BY JAMES O'DONNELL BENNETT
KANSAS CITY, June 13. (Exclusive)—My thought, as the Rotarians say—my thought is that the way to get the good and the instruction out of this convention is not to take it as a routine matter.

In its superficials—as the doctors say when they examine you—it is a routine matter. It is all Herbert Hoover, as you will see on Thursday.

And yet, it is a great deal more than Herbert Hoover.

It is you—and it is because Herbert Hoover knows that it is you that he is a candidate for President of the United States.

If it were only that the Quaker felt that his future hangs on the votes of this convention. I don't think he would much care.

He is a bigger man than that.

IT MEANS WORK

He knows how hard work it is to be President of the United States.

He knows how it means rising at 7 a.m. and sleeping before 9:30 o'clock. He knows how it means having Uncle Calvin send for you three times a day on this, that and the other subject.

All that kind of thorn is wearing.

It is not our man. If you are, as I am, reader, a hired hand—which is no ignoble position—you know how it takes it out of you to be boss sent for them. You know how you wonder what he wants and what you now have done wrong.

Cousin Herbert has been going through that for seven years.

Carrying a large load of his boss. He is so hard a boss that he even bawls out his wife in public when she delays him in his arrival at public functions.

SERVICE, HIS MOTO

The point of all this reminiscence—part of which was impasted to me by Herbert Hoover himself—is that Hoover needs to be President of the United States just for the sake of being President. He, if the truth were known, is keen to be President because, being President means service. And with a Quaker, service is all that.

Once I asked Hoover, "Did you bawl out the Germans in occupied Belgium? Did you tell them to 'go to hell'?"

"No," said he, "there was no rough stuff. The story is a good one, but it is not true. I wanted to be a good boy in the Reich. The German general staff wanted me to deal with them. I did not wish to. I said so. But there was no rough stuff."

All that applies today.

NO ROUGH STUFF

In this convention, though Hoover's cohorts control it, there is no rough stuff.

The routine party wheelhorses, like Simon Peet and George Moses and Reed Smoot, hated the debate because it delayed party routine and engendered topics for plain people like you and me to think about.

And as long as you and I don't think the Smoots and the Moseses and the Peets and the Butlers are contented, it is in our thinking—whether to take time for—if that balls up their plans.

But I—and the plain people like me—loved the debate because it was concerning our liberties and showing us that, despite present routine, we the plain people, I mean—do matter and do cut ice.

COULDN'T HURRY

The Reed Smoots and George Moseses and William Butlers were balked and delayed and taught a lesson at every turn of the road in this morning's session of the convention.

They could not hurry things.

Because when they tried to, up rose hairy men from Texas who said—"Ladies and gentlemen of the convention, we protest. The law in this matter is so and so"—and then they would quote law and precedent going back as far as A. Garfield's speech of protest on the same matters in the Republican National Convention of 1880.

I am not ashamed to say that I gave my attention to these proceedings with a kind of head and shoulders—with swimming.

It was all so vital and earnest. I know—for I, though emotional, am not quite a fool—that the primary purpose of the debate was to seat Hoover delegates. I know that the other purpose was to keep the steam roller not functioning without protest and that good lawyers and good Americans were being allowed their say by a convention which was against them.

QUESTION ASKED

Judge Hastings of Texas asked the convention, "Is the law of the State of Texas binding on a national Republican convention?" The law of our State says that delegates to a national convention may be nominated by a State convention. But it does not say that they may not be nominated by a Congressional District convention.

That was the gist of the question because of this convention.

You may not think it important. It was. I will not go into the intricacies of the debate. They would consume a column.

The effort of the debate was that the interests are being watched by honest, clever men and women.

Judge Hastings concluded that a law of the State of Texas that the election of delegates to a national convention is not binding on the convention. He insisted that a national convention is an autonomous

SUNDAY MORNING.
OUTS OF TRAVELWHITE HOUSE
ICE BOX BARESo President Has To Take
Mexican Aviator Guest
To Lunch Room

WASHINGTON, June 13. (AP)—When President Coolidge told the White House housekeeper today to prepare luncheon for Capt. Carranza, the Mexican aviator, and a number of other distinguished guests, the housekeeper looked a bit startled—hesitated, then replied: "But we have nothing in the ice box, sir."

"Well, we will eat out," was the verdict. The luncheon was served at the Pan-American Union Building.

The White House had prepared for the President's departure for the summer.

Gloria Slaps
Fast, Process
Server States

NEW YORK, June 13. (AP)—Gloria Swanson, screen star, is small but slaps fast, testified yesterday in a 165-pound process server, C. Alexander Cohen, in a \$30,000-a-year suit against the actress for having beaten him at the Pan-American Union Building.

The actress paid \$1000 for the suit.

"Well, we will eat out," was the verdict. The luncheon was served at the Pan-American Union Building.

The White House had prepared for the President's departure for the summer.

TEXAS UTILITIES
WORK REVEALEDPublicity Contracts Made
With ProfessorsTwo Tell Trade Commission
About MethodsExpenses of Teachers Paid
for Convention

WASHINGTON, June 13. (AP)—Contracts established by the Texas public service information bureau and the Southwestern Public Service Association with college professors, colleges and other educational institutions in the Southwest, particularly in Texas, were described today by C. W. Davis of Dallas, chairman of the bureau and a member of the association, at the Federal Trade Commission's utility investigation.

Another witness, R. J. Ballinger, secretary of the southwestern division of the National Electric Light Association, testified that his organization which represents Texas, Oklahoma, Kansas, Louisiana and Mississippi, the territory of the Southwestern Public Service Association, plans to spend \$30,000 this year on public relations work.

EXPENSES PAID

His organization, Ballinger said, after the expenses of a meeting of professors called by Dean C. O. Ruggles, formerly of Ohio State University, at New Orleans, to discuss utility courses in colleges. He added that the expenses of some professors were welcomed in the schools of Louisiana.

With the consent of the utility companies and the president of Tulane University at New Orleans, Ballinger said, he has accepted a position as instructor in journalism at the university for two years. He added that the pamphlets were welcomed in the schools of Louisiana.

Davis testified that the Texas Agricultural and Mechanical College, represented by the Southwestern Association as an avenue through which a survey of rural electrification was made by John E. Waggoner, a former farm-implement salesman from Chicago, who is connected with the institution.

Davis, introduced into the record, showed that in 1927 the association spent \$3,241 for the survey and that in 1928 the survey expenses have amounted to \$4,195.

Ballinger also is vice-president of the Dallas Power and Light Company, testified that the money was paid to the college which turned the funds over to Waggoner.

COLLEGES HEAR LECTURES
Davis described in his testimony that utility men in Texas delivered addresses at colleges and in high schools and of the work of women employees who are trained by the companies to address children inSPEED! ENTERPRISE! CONVENTION
PICTURES DEVELOPED IN PLANE

NEW YORK, June 13. (AP)—For the first time in newsworthy history a flying laboratory was used when moving-picture film and newspaper photographs of the opening of the Republican convention yesterday were developed and printed while being flown east from Kansas City.

Stops were made by this Richfield laboratory to permit the distribution of prints along the line of flight.

The plane, piloted by Bud Gurney, St. Louis air-mail pilot, carried schools on technical subjects.

He declared that the Texas Utility companies were thorough in their contacts with educational institutions, making them available for assistance and joint work with them. He added that the Texas institutions were anxious for the development of that State and often asked the assistance of utility companies in solving their problems.

The utility companies went to the colleges for assistance in their problems because, he said, they are the right institutions to handle them.

PERMISSION GIVEN

The third witness of today's session, Hugh M. Blain of New Orleans, director of the Louisiana-Mississippi commission on public utility information, decided that T. H. Harris, superintendent of education for Louisiana, granted his permission on December 13, 1927, to distribute thousands of utility pamphlets to the schools in the State. He added that the pamphlets were welcomed in the schools of Louisiana.

With the consent of the utility companies and the president of Tulane University at New Orleans, Blain accepted a position as instructor in journalism at the university for two years. He added that he has been director of his organization since 1927.

His organization is now distributing utility publicity to 6500 persons, newspapers, colleges, professors, high schools and libraries, he declared. He has written special articles for the New Orleans Times-Picayune, and Item and other southern papers.

CORRECTION ASKED

George F. Ooley of New York, director of information of the National Electrical Light Association, took the stand at his own request, he said, to correct some of his previous statements. He gave a survey of the Ontario government-owned power system made by Samuel E. Wyer, formerly of Smithsonian Institution.

Ooley said he was recorded as testifying that a payment of \$3000

CAPITAL FETES
MEXICAN FLYERCoolidge Heads List of Hosts
to Capt. CarranzaHop to New York Scheduled
for Next MondayMexico City Nonstop Trip
Slated to Follow

WASHINGTON, June 13. (AP)—Official Washington, led by President Coolidge, Secretary of State Kellogg and Atty.-Gen. Sargent, united today to express the nation's felicitations to Capt. Emiliano Zapata, Mexican good-will aviator, upon his flight from Mexico City to the capital.

The flyer started a busy day with the announcement that he had been given a nonstop flight from New York to Mexico City within the fifteen-day furlough allowed him by the Mexican Air Service.

A luncheon at the Pan-American Union with the Chief Executive as host was the principal event of the day's program, which included also a brief reception at the International Friendship Tree in Arlington Cemetery to lay a wreath on the tomb of the Unknown Soldier, a dinner at the Pan-American Union given by Secretary and Mrs. Kellogg, followed by a reception at the Mexican Embassy.

FATHER AT HIS SIDE

Companions of Carranza's side throughout the day were his friend Father Sebastian Carranza of the Consul General's office in New York; Manuel Tellez, the beaming Mexican Ambassador, who answered questions as to the flyer's flight with the statement that "he must rest."

As yet the identity of the boy's assailant has not been disclosed, it is known. Reports have come out that he neglected to pay back some tobacco he borrowed from a fellow comrade, but he has not been given official verification.

The boy is in the prison hospital and it is not yet certain he will live. If he does, it was said the number of muscles severed by the knife blade was 12. The boy's trial will take place in the jute mill. Trautman, alias Tasse, was discovered unconscious at a room.

MORROW ENTHUSIASTIC

Ambassador Morrow was enthusiastic at his meeting with Carranza. After the ceremonies at the Unknown Soldier's Tomb, he hailed photographers and asked the pilot to pose with his family. Turning to Mr. Carranza, he said:

"If I had a boy like that I'd have my picture taken with him every chance I get."

The Ryan monoplane which Carranza, identical with Lindbergh's Spirit of St. Louis, was automatically presented to Carranza when he landed it safely here. The ship was purchased by funds received from all parts of Mexico.

PLANS MADE TO OUST
LEWIS AS UNION HEAD

PITTSBURGH, June 13. (AP)—Plans to oust the administration of John L. Lewis as head of the United Mine Workers of America were announced here today following a meeting of miners who, the announcement said, represented mining districts of Pennsylvania, Ohio, Illinois, Indiana, West Virginia, Kentucky and Colorado.

A national convention to build a "new miners' union" will be held here September 3, leaders of the movement to overthrow the present union leaders stated.

FORMER JUDGE DEAD

TUCSON (Ariz.) June 13. (Exclusive)—John H. Campbell, who died Sunday at the age of 71, was one of the leaders of the Arizona bar, having resided here seven years in this city. He had served as a Federal district judge in Arizona, territorial attorney for the United States Attorney for the Arizona district, as chancellor of the University of Arizona and in many other public capacities. He was 59 years of age, a native of New York, and a graduate of George Washington University; he was connected, before coming to Arizona, with several branches of the Department of Justice.

The State revised system should be basic and local retirements should be framed to adapt them to it.

That a flat rate retirement system should be adopted for all teachers, both as to contributions and salary, rather than a system based on a percentage of each teacher's pay.

Other recommendations tentatively decided on by the commission are:

That there be no increase in allowances already set for retired teachers.

FINANCIAL

CHAFFEY BANK TO PAY EXTRA

California Directors Vote Special Dividend

Action Reflects Prosperity of Institution

Declaration in Line With Similar Moves

Directors of California Bank announced yesterday the declaration of an extra dividend of 25 cents a share for the second quarter, in addition to the regular quarterly of \$1 per share, payable to stockholders July 1.

The action of the directorate is in line with similar extra dividends declared the past two years and reflects the expanding development of the institution since its organization 1920. It was one of the first to institute a branch office and now has more than fifty, having added thirty-one in the past five years.

This extra dividend is the first that has been applied to the new \$25 par-value stock, the initial dividend of which was paid April 1. On June 21, 1928, an extra dividend of \$1 was declared on the \$100 par value stock then outstanding, which, in the present par value, is equivalent to 25 cents a share or at the annual rate of \$5. In 1926, \$4 a share was paid in extra dividends, and in 1927, \$2 a share.

The dividend rate which was \$12 a share in 1926 in addition to the \$4 disbursed in extras was changed in 1927 to \$18. Officers of the bank predicted that additional earnings would be reflected in the value of capital stock, which took effect December 31, last. This opinion was based on increases following similar action of the bank in former periods.

Original capital stock of the bank amounting to \$2,000,000 was increased \$300,000 in 1922, and \$400,000 in 1924. June 1, 1927, the capitalization reached \$3,000,000. At the end of last year, \$4,000,000. The recent declaration of the Chaffey Bank into California Bank is expected to substantially reduce operating costs and further enhance the earnings capacity of the institution.

COLLEGE ANNOUNCEMENTS

INSURANCE COURSE

A summer evening course in property insurance, including aeronautical insurance, fire insurance, automobile insurance, and corporate bonding, is announced to be given at the University of Southern California school of the University of Southern California, opening the 18th inst., at 6:10 p.m. The course will meet on Monday and Wednesday evenings from June 1 to August 8, 1928, and will be conducted by Prof. Earl W. Hill of the S. C. college of commerce. It is open to both men and women, with registration being made at university college Transportation Building.

SECURITIES RECOVER ON BAY MARKET

Tone of Trading Nears Normal After Shake-Out of Previous Days

SAN FRANCISCO, June 13. (Exclusive)—With the margin speculators apparently painted out of the picture and the conservative investors rallying to the support of basically sound securities, the broken-backed market of Monday and yesterday is on the mend.

News financing aggregating more than \$1,000,000 for National Family Stores, Inc., will be offered today by F. A. Brewster & Co. Through an offering of 40,000 shares of \$2 cumulative preference stock with detachable common stock purchase warrants at \$28.50 per share, yield over 7 per cent. Application will be made to the New York Stock Exchange and the Chicago Stock Exchange.

The warrants entitle the holder to purchase one share of common stock at \$30 per share on or before June 1, 1929.

Goldman, Sachs & Co. are offering 147,128 shares of common stock of the National Dry Cleaning Corporation, at \$25 per share. The company operates the largest department store in Louisville.

Application will be made to the New York Stock Exchange.

Bank of Italy opened steady at 210 and forged upward to 220 before closing off at 218 1-4. Bancitalia, which had closed at 198 1-4, 1-4 points higher at 202 1-4 and touched 214 1/2 before reacting to close at 140. Bank of California likewise staged a 5-point rally to 145, 1-4 points advance to 146. The market was closing 6 points higher at 164, after having hit a high of 175 during the day.

Action of the bank shares gave some encouragement, but margin accounts eventually have been cleaned out and the corresponding rally in industrial and public utility shares indicated that the forced liquidation of weakened accounts had run its course.

Bank Delegation Leaving Today

Los Angeles delegates to the annual convention of the American Institute of Banking, numbering more than forty banks, headed by Gardner Turnley, president of the California Bank, will leave today on a special train for Philadelphia for the convention, to be held there from the 18th to the 22nd inst.

W. Polk, junior vice-president of the Merchants' National Trust and Savings Bank, and president of the Los Angeles chapter, will address the convention on "Support of National Bank of Italy." R. J. Williams, vice-president of the Bank of Italy, and president of the national organization, will be in charge of the Philadelphia convention.

Sales of Neon Products Gain

Sales of the Electrical Products Corporation for the current month are running approximately 35 per cent higher than the previous month, officials of the company stated yesterday. June is expected to be one of the best months in the history of the company, they said.

While no statement has been made for May, sales for April amounted to \$225,000, and for the first four months of the year aggregated \$804,425. With sales running ahead of those of last month, it is expected that earnings for this quarter will be considerably better than for the first quarter. Due to the absence of Paul Howes, president, and several of the directors, the meeting scheduled for the 1st inst. was postponed until the end of next week.

NEW OIL CONCERN GRANTED PERMIT

Commonwealth Oil Company, a California corporation with an initial capital of \$250,000, divided into 25,000 shares each with a par value of \$10, has received a permit from Corporation Commissioner J. M. Friedlander to dispose of 1,000 shares of its common stock company according to its application to operate in the Huntington Beach district, a portion of the stock issued to be given in exchange for production property in the field and the remainder to the organizers. Officers of the company are Earl W. Paul, H. G. Moore, W. A. Paris, P. V. Collier and E. S. Wallace.

MARLIN ROCKWELL DECLares EXTRA

NEW YORK, June 13. (P)—Marlin Rockwell Corporation declared an extra dividend of 50 cents on the common stock, with the regular quarterly of 50 cents, both payable July 2 to stock of record June 20. Extra quarterly dividends of 25 cents had been paid previously.

ORDERLY MARKET CHIEF AIM

Decline in Stocks Laid to Reserve Bank Desire to Enter New Era Slowly; Pace Too Swift

BY EARL E. CROWE

In attributing the severe correction in the New York stock market to the thinly veiled hints of the Federal Reserve Board, it seems likely that the majority of observers are correct. The board has indicated for some time its displeasure over the enormous increase in brokers' loans and the reckless participation of the public in the market. For only the sake of national prudence the logical development was a reduction in loans and the employment of disciplinary measures on the speculators.

Some of the gossip, it is true, has sought to lay the blame at the feet of powerful professional interests, which are supposed to have organized a determined drive against the market. This line of conjecture, however, is refuted by the action of the board. If the board should have existed, the decline would have been interspersed with sharp rallies in reflection of the company's operations. In their time or the absence of any well-defined position on either side of the market, stocks are acting tired.

In the rumors holding for the large speculators responsible for the large losses in the market, the members of the Federal Reserve Board called these individuals into conference and asked their aid to depress prices. On its face this is plainly nonsense. The indications, however, are on the side lines leading to the conjecture that a suggestion may have been dropped in responsible quarters that their temporary withdrawal from the market would be advisable.

Aside from the inordinate activity of the public in the stock market and the proportion of total bank credit loaned on securities, it is doubtful anyone in close touch with the situation will contend that speculation has endangered the nation's economic structure. When this unsettlement is cleared up, it is likely that the good stocks will resume their advance. Concern is not directed to the actual level of prices, but to the rapidity at which both prices and brokers' loans have increased. The country simply is not accustomed to such large figures, and has not had the time to obtain a new perspective.

RESTRAINT NEEDED

This idea possibly has been in the minds of the large investors. The decision to discuss restraint, it is believed, was founded on the arrival in the city yesterday of Arthur C. Jones, president of the Piggy Wiggly Company.

In addition, it is believed that the merger rumor had recently come to his attention from several sources along with the report that the company was negotiating for a merger with Kroger's grocery chain, the company he said. Edward Dale, vice-president and general manager of the Southern California division of the Southern Stores, Inc., was present in conference with the California head office of the system.

A consolidation of the two companies would result in the largest grocery chain in the United States. Piggy Wiggly has 1,000 stores in operation, 185 units mostly in Southern California, and for the five months ended May 30, last, had sales totaling \$6,095,419. Piggy Wiggly operates 967 grocery stores, 260 meat markets and 575 drug and grocery markets are in Southern California. Sales for the same five months period aggregated \$38,406,545.

It takes time for a new area to win a permanent place, and this one has been too swift in arriving.

It is not unusual for a recent merger to be received with a ringing endorsement.

MORNING

TONE ON METAL MARKET STRONG

Copper Enters Seventeenth Week of Activity

Strength Thought Traceable to Advance Buying

Zinc and Lead Reported in Better Positions

BY CHARLES F. WILLIS

(Editor Mining Journal, Phoenix)

Even though the metal market continues strong with a large demand for copper, the advance in prices seems to have stopped and settled down to a fixed amount.

Copper remains strong at 14-1/2

t.o.b. refineries and 15 cents c.i.f.

European ports, lead stands at

6.50 contract price, for New York

and 6.25 for San Francisco.

The metal prices during May present an interesting story. Copper opened the month at 14.25, closed it at 14.75, and had an average during the month of 14.10, thus showing that the bulk of the metal sold during the buying wave was while the price was still low. Lead opened at 6.10, closed at 6.30 with an average of 6.127, a figure which shows that the buying price greatly slowed up sales. Zinc opened at 5.86, closing at 6.00, with an average of 5.93. Zinc was the highest price, and had a record-breaking delay of one final quotation yesterday, as the market had been closed for a week.

Measured by Associated Press, the market was generally up during the month, and moved upward from the start, quotations which were the highest closed a long list of 1 to 10 points in standard industrial metals and 6 to 15 points in the metals.

Measured by Associated Press, the market was generally up during the month, and moved upward from the start, quotations which were the highest closed a long list of 1 to 10 points in standard industrial metals and 6 to 15 points in the metals.

The day's sales aggregated 1,000,000.

CREDIT IMPORTANT

Although political uncertainties are expected to play a big part in the market during the next month, the market situation is believed to hold the key to the situation.

The market has been strong, although funds were reported to be in the market in some measure, as 5% per cent. No official rate is expected after the midmonth demands for funds are out of the way.

The commercial paper rate is expected to increase in Federal Reserve

Bear Movement Runs Out as Bank and Oil Shares
Strengthen on Local Mart

Definite improvement marked the trading yesterday on Los Angeles Stock Exchange. Bank stocks, which in the past two days' panic, slumped to record lows for the year, opened with substantial gains over Tuesday's close and although many stocks fluctuated in a range of 5 to 10 points, the entire list closed higher. Oil stocks were strong throughout the five-hour session and all issues showed gains at the end of the day.

Bank of Italy, Los Angeles First & National and Bancitac vied for leadership in trading activity. Bank of Italy jumped 25 1/8 points to a high at 225 1/8 and closed at 215 for a net gain of 10 points. Bancitac ranged between 147 and 139 and closed at 140, up 7 points. Los Angeles First & National, after reaching 130, closed at 124 1/2 for a gain in the day of 6 1/2 points.

Merchants National opened up 10 to 210, soared to 220 and closed at 212, and marked a gain of 12 points from Tuesday's close. California Range Div., Los Angeles

Bank, Los Angeles First & National and Bancitac vied for leadership in trading activity. Bank of Italy jumped 25 1/8 points to a high at 225 1/8 and closed at 215 for a net gain of 10 points. Bancitac ranged between 147 and 139 and closed at 140, up 7 points. Los Angeles First & National, after reaching 130, closed at 124 1/2 for a gain in the day of 6 1/2 points.

Standard Oil of California and Union Oil of California, both up 1 1/2 points at 42 1/2 and 31 1/2, respectively. Standard Oil of California gained a like amount to 56. Republic Petroleum ranged between 80 and 76 and closed at 79 for a net rise of 2 cents.

Merchants National opened up 10 to 210, soared to 220 and closed at 212, and marked a gain of 12 points from Tuesday's close. California Range Div., Los Angeles First & National and Bancitac vied for leadership in trading activity. THE WEATHER

(Official Report)

Local Office, U. S. Weather Bureau, Los Angeles, June 13 (Reported by H. E. Hersey, Meteorologist): At 5 o'clock a.m. the barometer registered 29.97; at 5 p.m., 29.86. Thermometer for the corresponding hours showed 88 deg. and 88 deg. 4 miles; 8 p.m., 88 deg. and 88 deg. 4 miles; 9 p.m., 88 deg. and 88 deg. 4 miles; 10 p.m., 88 deg. and 88 deg. 4 miles. Temperature, highest, 73 deg. 6 miles; 57 deg. Rainfall for season, 9.76 inches. Rainfall, 12 miles, 15.12 inches; last season to date, 11.75 inches. Barometer reduced to sea level.

WEATHER CONDITIONS—June 13: Showers and thunderstorms have occurred during the past twenty-four hours at many locations in Southern California, in the Gulf and South Atlantic States, and in the Dakotas and Minnesota.

The rainfall was heavy in the West.

Cloudy weather prevailed yesterday, with

moderate temperatures along the coast.

Cloudy weather was reported yesterday.

STEEL MAKERS
WILL CONVENESouthland Executives Meet
Tomorrow at AlexandriaStandardizing of Product
Will be DiscussedState Laboratory for This
City to be Requested

Standardization of the output of the Southern California iron, steel and allied factories to reduce production costs and make possible the extension of the marketing territory will be considered by the 100 executives of these industries who will meet tomorrow at the Alexandria. The meeting will be held jointly with the iron and steel executive committee of the California Development Association. W. R. Taylor, vice-president and general manager of the Llewellyn Iron Works of Los Angeles, will preside.

At the close of the noon luncheon the steel men will be addressed by George L. Esman, president of the Los Angeles Chamber of Commerce, on "The Industrial Development of Southern California." G. W. Ward, president of the Wilson and Ward Manufacturing Company, on "The Problems of the Industry and How They Are Being Met," and Maynard McPie, director of the California Development Association, on "The Importance of the Iron and Steel Industry to Southern California."

WILL INCREASE PROFITS

It is pointed out by G. W. Hudson, assistant director of the Commercial Standards, United States Department of Commerce, that 80 per cent of the business done by the iron and steel industry is in 20 per cent of the 500 different commodity lines produced by them.

By standardizing the output of these plants and reducing greatly the commodity lines in which only 20 per cent of the business is done, he declares the California factories can lower considerably the production costs and bring up the margin of profit. This, he says, is also said, will put the factories in position to extend their markets.

Among other problems to be considered tomorrow, will be the contacting of purchasing agents, architects, engineers, contractors, municipalities and other buyers to acquaint them with the merits of the domestic products and advantages to be gained in purchasing them.

The iron and steel men, it is desired, will meet with the State Department of Public Works the adoption of standard specifications in all purchases for the four branches of the department, such as are now being used by the State Highway Department.

REQUESTS FOR LABORATORY

The establishment of a State Testing Laboratory in Los Angeles will be asked, based on the following reasons:

(1) To establish closer contact with the industries of Southern California.

(2) To obtain more effective service for the State department and contractors, as well as those furnishing material on State work.

(3) To provide more complete information to the public on the less waste of time that is possible under the present system which requires all materials to be sent to Sacramento to be tested.

During the day there will be meetings of the six leading groups of the Southern California Iron, Steel and Allied Industries, starting at 10 a.m. The meetings will be in charge of the following chairmen: 2½ miles, Harvey Newell; Southern California Iron and Steel Company; structural shops, E. F. Gohl, McClinic-Marshall Company; reinforcing steel dealers, N. E. Dawson, Soule Steel Company; merchants' steel dealers, J. E. Webster, Dudson Corporation; founders, C. H. Shattuck, C. F. Braun & Co.

Northern California iron and steel groups will be represented on the executive committee by the following:

Steel Mills, J. M. Fitzhugh, Columbia Steel Corporation; structural steel shops, Harry Mortenson, McClintic-Marshall Company; reinforcing steel dealers, E. Dawson, Soule Steel Company; founders, C. E. Williams, Columbus Steel Corporation; general manufacturers, R. M. Alvord; General Electric Company.

Rural School
Problems Topic
of Convention

Problems of the rural school teacher will be discussed in a two-day convention which opens at the Alexandria Hotel tomorrow morning at 9 o'clock. Speakers from the State Department of Education in San Francisco and the Pacific Coast States are on the program. The conference was called by John J. Tigert, United States Commissioner of Education.

The morning will be devoted to the "Rural Teaching Situation" with W. M. Smith, assistant State Superintendent of Schools for Oregon, leading the discussion. During the afternoon there will be discussions of ways and means of meeting the rural-teaching situation.

"Training Teachers for Rural Schools" will be the topic for Saturday morning discussion, and problems of adjustment and co-ordination will be considered during the afternoon.

FILM SUIT CLOSED

Commission Claim Against Director
Removed From Calendar

A lawsuit which stirred up considerable interest in the motion picture colony tonight by Harry Lichtig and Ben A. Englander against Tod Browning, motion-picture director, in which \$2700 was asked, was taken off the calendar in Judge Bishop's court today.

The plaintiffs were suing Browning for compensation they asserted were due them for obtaining the latter a job as director of the Metro-Goldwyn-Mayer studios.

It was claimed in the action Browning had received \$40,000 for services in directing the making of four pictures. It was asserted he had agreed to pay Lichtig and Englander \$10,000 each for their services. It was admitted that \$1300 had been paid at the completion of the first picture, leaving a balance of \$2700 due.

Fokker Points to Aviation's New Needs

At Breakfast Club Gathering
Left to right—Harris M. Hanabue, Dr. T. C. Young, air race executive committee, Anthony H. G. Fokker and Cliff Henderson, managing director of the air races and aeronautical exposition, at the Breakfast Club air morning yesterday.

DECLARING that with the journey to Australia of the Southern Cross completed the airplane now has covered practically all the world, Anthony H. G. Fokker, designer and builder of planes, before the Breakfast Club air races and exposition, by Fokker, who visions the potentialities of Los Angeles as an aerial metropolis. J. P. McEvoy, playwright, publisher and author, was also present and introduced as the guest of Jack Dernay, attorney. Cora Gordon, author and illustrator; Henry Balaban, Chicago attorney and theater magnate; C. C. Teichner, New York, manager of the H. H. Hoffman, and A. Wagner, Chicago director of the American Legion, and Frances Proschowski, opera coach of New York and Berlin, were other guests.

A hand-angled breakfast plane as the guests of Fokker is the prospect as a small group of Breakfast Club members tomorrow morning. The breakfast plane is an invention extended by him yesterday. The large plane will be at the Griffith Park flying field at 7:30 a.m.

Manufacturers of airplanes and airplane equipment will exhibit exhibits to the International Aeronautical Exposition to be staged here in September in conjunction with the National Air Races, according to Fokker.

More of the modern-type airports, more intelligently designed landmarks for air travelers and more operating facilities of the type of Western Air Express with its record of no serious accidents, are other points stressed.

PICTURES' FINANCING- SUIT ENDS

Woman Asserts Stardom
Was to Be Recompensed
for Funds Advanced

Some of the troubles that accrue
in the financing of motion pictures
in the making were aired in
the trial of the suit brought against
Arthur Guy Empey, author of the
famous war story "Over the Top,"
Florence Rice of New York, over
the recovery of \$25,000 advanced to
have been loaned the writer in
January, 1922.

The hearing was held before
Judge E. M. Clegg in the Superior Court.
The case was taken under submission
for the continued use
of Dr. Dyer and his
law office. The property has
been referred to a referee in

TERIAN RESIDENT SUCCUMBS

of County During
Her Decades Victim
Dying Illness

ation for William A.
Terian, 80 years of age, Glendale
will be held at 8 a.m.
at St. Vincent's Church.
Services will end at 9:30 a.m.

Friends Gothic and Mar-
tinez will be present.

Interment

in Glendale Cemetery.

Terian died at the California

Hospital Tuesday morn-

ing after a long illness.

The writer, who was repre-

sented by Attorney Robert C.

Chambers, asserted that the loan

was not a personal one, the com-

pany failed and for that reason he

is not liable for payment.

Mardi Gras Will Be Presented by K. of C. Chapter

Willingness to assist in meeting

the problem of unemployment is be-

ing shown by industrial concerns

and leading merchants of Los An-

geles, according to officials of the

Southern California Chapter of the

Knights of Columbus. The latter

are planning an industrial meet-

ing at the Los Angeles Col-

lege campus the week of July 23.

Charles O'Hara, chairman of the

general committee for the pageant,

declared yesterday that with the as-

stance of individual members of

the Los Angeles Chapter of Com-

merce and Merchants and Manu-

facturers Association, booths for

representative exhibits are going

rapidly.

Details are being worked out by

a committee headed by Joseph D.

Minster for a novel popularity con-

test as the result of which a South-

ern California girl will be selected

to assume the title of "Miss Com-

munity" and make the trip to

Washington, D. C., for the Interna-

tional Congress, as the guest-delegate

of the Knights of Columbus.

GARDEN GETS PERMIT

The California Botanic Garden

in Mandeville Canyon, adjacent to

western Beverly Boulevard, were

granted permission by the City

Council yesterday to construct the

new greenhouses and other buildings

needed for the operation and main-

tenance of these public gar-

dens, which are open free to the

public.

as soon as possible; still, while they continue
in force, for the sake of example they should
be religiously observed.

Abraham Lincoln

TODAY'S BIBLE TEXT

Go to the ant, thou sluggard; consider
her ways and be wise: Which having no
guide, overseer, or ruler, provideth her
heat in the summer, and gathereth her
food in the harvest. Prov. vi:6, 7.

THEY'LL STAY
"Foreign troops must leave China
immediately," says the Nationalist coun-
cil of Nanking. Just watch 'em move.
They'll march about as fast as the Great
Wall.

FINE FOR FINNS
At the recent motor show in the
capital of Finland four-fifths of the cars
were of American make. From the
Arctic Circle to the African jungle Uncle
Sam's automobiles are blazing the trail.

POETIC JUSTICE
"Shake-Up of Police. Two Score
Officers Shift Posts on Sudden Orders."
In other words the man with the badge
had to budge. Seems like poetic justice
though, this making the police "move
on."

SLIGHT SHAKES
There was an average of sixteen
earthquakes a day in the Japanese em-
pire last year. But the majority of them
were so light that only the delicate
mechanism of a seismograph could re-
cord them. A full-sized crap game
might be considered a shock over there.

FIRE DANGER TESTS
A man throwing away a cigarette
but by the roadside easily may set fire
to a large area of brush or woodland and
never know that he had caused the wide
destruction. One reason why cigarettes
are a greater menace to the forest than
cigars or pipe droppings is that they
burn longer. Six popular brands of ci-
garettes recently were experimented
with by government officials, and it was
found that all of them after once being
lit burned steadily until reduced to
ashes. Certain Turkish cigarettes re-
quire thirty minutes to burn out. New
warnings have been issued by the Auto-
mobile Club of Southern California as a
result of the tests, and cigarette smokers
touring the wooded districts would
do well to heed them.

CAUTIOUS LINDBERGH
Everywhere he flies Col. Lindbergh
bears most carefully in mind that one of
the greatest dangers to human life con-
nected with aviation is that of landing.
The danger is not so much to the avia-
tor as to the crowds that gather to see
him alight. "Unless crowds are heavily
guarded," said the colonel recently,
"they will not keep back, but putting a
big guard on a landing field is quite a
problem." For this reason, though
sometimes criticised for his reluctance
to land, he skirts the field and keeps ev-
erybody waiting while he is looking for a
safe spot to come to earth. That any-
body should blame him for taking such
pains seems strange, and yet in Texas
some of the newspapers severely cen-
sured him for being "so skittish." But
as yet Lindbergh has killed no one in
many waiting throngs where he has
landed, and he is taking every precau-
tion against such a tragedy.

A TRUSTING PLACE
The alert and competent workers
who constitute the human element of
the Title Insurance and Trust Company
do their duties for a day that they may
give greeting to thousands of friends
and visitors who enjoin the magni-
ficent new home in which their future
efforts are housed. This is a stately and
impressive structure. See where it
stands \$4,000,000 temple of research
in the heart of the big city's financial
district. It is a monum-ent pile of steel
and stone, of brick and tile, and all the
ingredients in the make-up of the modern
hive of human industry. It is a
titanic testimonial to the progress and
prosperity of the metropolis of the
Southwest. It must needs be spoken of
in big figures, for in itself it is the clear-
house of high numbers. There they
speak of millions as casually as most
folk gossip of the weather.

These big trust companies carry the
key of the citadel. Most of the wealth
of the community at one time or another
passes through their hands and goes out
and on with enlarged zest. They
represent business integrity, eternal
vigilance, individual justice, civic loyalty
and industrial advancement. They are
the rock of our commercial faith.

PLATFORM FOR HOOVER

The record of the achievements of
the Republican party since it first as-
sumed the reins of national government
in 1881, placed before the country in
concise review by Senator Fess, keynote
speaker of the Republican National Con-
vention at Kansas City, furnishes a solid
and adequate platform from which any
candidate might with confidence appeal
to the voters. No action by the resolu-
tions committee of the convention could
offer to Herbert Hoover, who now is con-
ceded the nomination even by his bitter-
est opponents, a better foundation on
which to base his campaign. Not only
because Hoover's own record of accom-
plishment is outstanding, but because
the party for which he will be the stand-
ard-bearer has contributed enormously
to the upbuilding of the great nation
which the United States has become,
will he be able to go to the polls this fall
with all the probabilities in his favor.

It is, of course, easy to overemphasize
the effect of national administrations
and national party policies upon pros-
perity and development, for there are
many factors beyond human control,
and many principles not yet understood.

As the area of human knowledge widens,
however, the area of the unknown con-
tracts, and more and more, as the world
progresses, does human success in the
business of living come to depend upon
good management and less and less upon
what is now called chance. It is for
good management that Senator Fess
claimed credit for the Republican party,
and the claim must be allowed on the
basis of the overwhelming array of facts
which he cited.

The preservation of the Union under
Lincoln, resumption of specie payments
under Grant, saving of the nation's
financial honor, development of the pro-
tective tariff system and enlargement of
the national domain under McKinley,
building of the Panama Canal and in-
auguration of a program to humanize
industry under Roosevelt, and planning of
the subsequently adopted Federal Re-
serve banking system under Taft, were
merely the most outstanding of Repub-
lican achievements cited by the speaker,
up to the present decade.

The manner in which Harding and
Coolidge extricated the country from the
after-war restored peace, stopped the
race for naval supremacy, paid off
nearly \$8,000,000,000 of the war debt,
gave industry a chance to recover itself
by reimposing the tariff walls torn down
by Wilson, adopted a wise restriction of
immigration, gave back the railroads to
private ownership and efficient manage-
ment, aided the development of radio and
of aviation, and reduced taxes by approximately
\$2,000,000,000 a year, was described by
the speaker in more detail.

He referred to prohibition in a most tell-
ing phrase when he called it "human
conservancy" and pledged the party to its
continuance. But it was in large
measure to the achievements of Herbert
Hoover that he was referring when he
said:

"This leadership (of the Republican
party) sought to realize the maximum
efficiency in both management and la-
bor as applied to production, and to se-
cure a more equitable distribution of the
fruits of effort with the wholesome re-
sults of the most cordial relationship
between capital and labor yet enjoyed in
our country. Under that leadership we
have reached the highest wage scale
known in history, a principle which is
maintained as sound economically in
that by increasing the output per unit
we decrease the cost without lowering
wages and thereby increase the buying
power of the public."

"Today we are in the longest period of
sustained business prosperity in our history."

These solid and undeniable accom-
plishments of the past are a guarantee
that the party which has wrought them
will be able to carry on, in the future, for
the best interests of the nation. Of that
future Senator Fess said:

"The ambition of Republican leader-
ship and policy is the open door to the
maximum utilization of all our people
of whatever class or race, profession or
calling, to promote self-reliance and in
the degree humanly possible to banish
poverty from our midst."

THE LEE SIDE O' LA
BY Lee Shippey

A HOLLYWOOD friend of ours has
just returned from a triumphal tour of Europe.

He succeeded where many fail be-
cause he was a patron of the arts.

His first three days in Paris he
nearly starved, in the midst of what is rated as
the finest cooking on earth.

The continental breakfast — so-
called, he says, because a after
eating one you don't care a con-
tinental what happens — started him
out wrong every day, and he kept going
from bad to less.

The third day he struck against
visiting any more cathedrals or ta-
pestries foundries, packed his women-
folk into a taxi and sat in front of a
sidewalk cafe to brood over his
troubles.

A Double Rescue

Along came an American who was
down and out — an artist who could
paint wonderful pieces for dining-
rooms, but couldn't turn any of them
into real food.

"You're just the man I'm looking
for," said our Hollywood friend.
"Paint for me, on some cards to fit
my pocket, alluring pictures of a
platter of ham and eggs, of a sirloin
surrounded by fried potatoes, or fried
mush and bacon, of a big bowl of
porridge and cream, and so on. Paint
me a dozen pictures, four for luncheon, four for
dinner."

Unfortunately, she does not
take time to explain away (1) "high-
lifting"; (2) "artificial bucking"; (3) dragging steers
different ways by lines attached
to rear left and right foreleg. Is
this the personified steer to be
told to lie down?

But they're not all lobsters, either.

It's just a great relief to a

Familiar Scenes

After attending a performance of
what he calls "A Night in Pain,"

B. M. wants to know why people still
retain interest in leg shows.

Well, there's an old saying that
people like what they get used to.

Humorist Lindsey

We note that Judge Ben Lindsey
is writing for the Los Angeles Times.
That shows what the public
really thinks of his companionate
marriage idea.

A Backslider

A Long Beach German woman,
speaking of a two-time loser who has
just "gone over" again, said: "He
was yet already twice before an ex-
convert." — F. E. Morrison.

The flag around lest you make some
mistake. You feel like a bumbkin at a ban-
quet at loss to know what to do with the
table hardware.

There is a certain decorum around the
flag that is praiseworthy. Americans have
always resented anyone trampling it.
They have never allowed it to trail in
the dust. They have always gloried in
having it float from the highest
principle. They have always heaved with
pride in flinging it from the mast.

But the old heroes who planted the
flag in the forts, bore it forward at the
head of marching columns, carried it over
bloody ramparts, compelled respect
for it around the globe and were
wrapped in its folds in death on the field
of battle knew nothing of a ritual for it.
It was sufficient for them to see it
still aloft after the night and the bat-
tle. It was sufficient for them to fill the blue
field with more stars. The flag was their
protector; not they its guardian.

Are we more patriotic than our fathers
who strenuously the purity of the flag with
their blood? When we begin to quibble
about how to hang it instead of what it
stands for, is our affection for it flag-
ging?

Does the present-day official Wash-
ington, that is, sensitive of rank and
code, have a loftier enthusiasm for the
flag than did Lincoln and Grant? Is not
a wholesome love for Old Glory its
greatest safeguard?

Are we in peril of becoming prudes of
second fiddle?

This is a fitting time to meditate
upon the Vice-Presidency — whether it is
better to play second fiddle, or to be en-
tirely out of the orchestra.

This office has been regarded as the
graveyard of the republic. When a real
statesman becomes objectionable to the
bosses and cannot be downed, they often
dispose of him by making him Vice-
President. He is supposed to be harm-
less in that office.

To force a man into second place is
sometimes complimentary. It is ac-
knowledged that he has to be reckoned
with.

It is a compliment to be in the upper
right hand corner with the stripes run-
ning down.

If the flag be draped with other colors,
it must project to the right as seen in
front. It may not be used as a table-
cloth, even in a patriotic setting.

Where "COOL" isn't just "LESS HOT"

In San Francisco—Another's modern summer city—the average temperature is 51°. A vacation at "The Clift"—one of the finest hotels—may be as good as you can get. And it's one of the most delightful. Convenient to golf, beaches, parks and vineyards, motorships, 500 restaurants with both, spaciousness, luxury, day, per person, \$6.00 upwards.

Supreme Achievement in Feminine Hygiene The NEW and IMPROVED KOTEX

KOTEX, first of all scientifically fashioned sanitary napkins, changed habits of women the nation over. For Kotex was a new idea in protection. It was absorbent—more comfortable; it was *disposable*; it was easily bought, by name.

It is not surprising, then, that Kotex should offer the perfection of the sanitary pad . . . a new product especially shaped to fit, softened to ease, more highly absorbent—*greater* protection.

The New and Improved Kotex is scientifically rounded and tapered by an exclusive process. By the new cut it may now be worn with the smoothest, most clinging gowns. Exactly the same in thickness and weight, it is now treated so that it seems lighter, daintier to wear. The filler is adjustable so that it can be made thinner if you wish.

Nurses, doctors, recommend the New and Improved Kotex as the finest development in women's intimate hygiene since Kotex itself appeared. At all drug, dry goods and department stores. Buy a box today—45¢ for a box of 12.

The New and Improved Sanitary Napkin

SOCIETY

Miss Marie Collison, attractive daughter of Mr. and Mrs. John M. Collison, has chosen Wednesday, the 27th inst., as the date for her marriage to Paul Lincoln Armstrong of Chicago, the ceremony to be read at high noon at the home of her parents in West Twenty-first street, near L. B. Davis, in Highland Park officiating Miss Helen Rogers will assist as maid of honor while Mrs. Eugene Wilson Ross (Ruth Collison) will be her sister's matron of honor, and Mrs. Grafton Petrie, Mrs. Clark, will be the other attendants with little Nancy Langley, the dainty flower girl.

Peter Owens will serve Mr. Armstrong as best man and John McElroy and Raymond Tremaine will be ushers.

Many lovely affairs are being given in honor of Miss Collison and there will be a number of post-nuptial affairs after they return from their extended journey to make their future home.

Miss Martha Tuttle is giving an affair at the Beach Club in Santa Monica Saturday afternoon for Miss Collison, and Miss Katherine Connell, who is to be graduated this month from Minneapolis School, will share the honors of the afternoon.

Miss Eva Raigh is planning a breakfast at the Hollywood Country Club the 19th inst., in honor of Miss Collison.

Mrs. Grafton Petrie, Tanguary (Katherine Mullin) was the hostess at a luncheon and kitchen shower honoring Miss Collison, the affair taking place at the home of her mother, Mrs. J. L. Mullin, an attractive

five color scheme and bridal motif being effectively carried out in the decorations and appointments, white candles, wedding bells, cupids and other attractive features being used. Those included Wallace McGee, Russell Mullin, Bush Hindale, Alfred Wilgus, Fierstone, Collison, Perry Bacon, Alfred Hamilton, George Moore, Russell Collier, Rayford Highfill, Raymond Tremaine, Gladys Tremaine, Chester Smithers, Frank Otto, Harry Lampert, Charles Hilliard, John M. Collison, Lorraine Noble, Rosemary Weaver, Betty Wheat, Helen Mead, Dorothy Johnson, Edna Tilden, Edna Ruwe, Eleanor Connell, Alvaah Woodhouse, Ethel Haight and Gladys Crail.

Vacation Plans

Miss Gertrude Ellis, daughter of Mr. and Mrs. Charles F. Ellis of 251 South St. Andrews Place, who has been a student for the past year at the Finch School in New York, will be on a ten days' following commencement visiting in Washington, and is now visiting with relatives in Clinton, Iowa. She will attend the Gold Cup Races at the conclusion in Minneapolis and is planning to return home about July 15.

Summer Abroad

Mr. and Mrs. Owen Porter Churchill of North La Brea, Palms, will leave Hollywood with their small daughter, Elizabeth Anne, left Saturday for New York where they are sailing shortly for an extended trip abroad, planning to be away at least three months. Their daughter and their mother, Mrs. Owen Porter Churchill, will occupy their Los Palms avenue home.

Mr. and Mrs. Bert Weston with their daughter and Mrs. Weston's mother are leaving for the East Saturday afternoon the Riding Club of Los Angeles High School

held his last luncheon-ride for the season. There were about thirty-five participants.

Leaving the main stables of the Los Angeles Riding Academy, the ride was divided into the hills north of Beverly Hills. Those unable to ride, followed the group in their automobiles, brought along lunches and refreshments for the horse-riders.

Entertaining Visitor

Mr. H. H. Lemon of 787 South Euclid avenue, Pasadena, complimented Miss Spellman of St. Joseph, Mo., with luncheon in the Arbor Room of the Victor Hugo last Monday, previous to attending the opening of the Congress. An attractive table was set for the guest, including Mrs. S. L. Bierbauer, Mrs. W. Trask, Mrs. F. W. Haase, Mrs. C. G. Guglietti, Mrs. H. C. Lockwood, Mrs. H. H. Mullin, Mrs. H. P. Correll, Mrs. C. Hatch, Mrs. A. A. Vallencourt, Mrs. H. Hahn, Mrs. W. White, Mrs. L. Webb and Mrs. H. H. Lemon.

At Dinner Dance

On one of the prettiest parties at the dinner dance at the Miramar Saturday was that given by Mrs. Kim S. Dickey of Chattanooga, Tenn. The table was profusely decorated with spring garden flowers in all shades and asparagus ferns, with flowered place cards and nut cups. Covers were set for the tables of the Beverly Hills, Miss Jean Beard, Beverly Hills; Mrs. Florence Peoples Witcher, Los Angeles; Miss Sarah Llewellyn, Hollywood; Miss Lucy Guild, Hollywood; Mr. Bayard King, Beverly Hills; Mr. and Mrs. William Marion, Ga.; Mr. A. Bunch, Hollywood; Mrs. A. S. Dickey and the hostess.

Luncheon-Ride

Saturday afternoon the Riding Club of Los Angeles High School

held his last luncheon-ride for the season. There were about thirty-five participants.

Leaving the main stables of the Los Angeles Riding Academy, the ride was divided into the hills north of Beverly Hills. Those unable to ride, followed the group in their automobiles, brought along lunches and refreshments for the horse-riders.

Entertaining Visitor

Mr. H. H. Lemon of 787 South Euclid avenue, Pasadena, complimented Miss Spellman of St. Joseph, Mo., with luncheon in the Arbor Room of the Victor Hugo last Monday, previous to attending the opening of the Congress. An attractive table was set for the guest, including Mrs. Edgar Glenn, Mrs. A. L. Neal, Mrs. J. G. Thayer, Miss Elaine Black, Miss Helen Rivers, Mrs. John C. Guglietti, Mrs. Ned Culler, Mrs. Samuel Woody, Miss Elizabeth, Mrs. Stewart Cain, Miss Josephine Flummier, Miss Eunice Hershfield, Mrs. J. Correll, Miss Helen Rice, Mrs. M. M. Mullin, Mrs. L. C. Tucker, Miss Virginia Johnson, Mrs. Walter Johnson, Miss Elizabeth Parker, Miss Bessie Topp, Mrs. Elsa Woodruff, Mrs. A. E. BonDurant, Mrs. Ella BonDurant, Miss Audrey, Mrs. Dorothy, Mrs. Dorothy Wadsworth, Mrs. Parker Dashiell, Mrs. Seán Rankin, Mrs. Frank Blasen, Mrs. A. A. Willis, Mrs. John Bigelow, Mrs. Paul Wilson, Mrs. Helen Morrison, Mrs. A. Denning, Mrs. Parker Robinson, Mrs. William Woodruff and Mrs. Blanche McGinnis.

Ladies' Night

The Oneonta Club of South Pasadena gave its annual "Ladies' night" dinner and dancing party at Hotel Maryland, in Pasadena, Monday evening, covers being laid for 400. An orchestra played during dinner and there were other entertainment features after dinner in addition to cards and dancing.

Those in charge of the affair include Stanley Bent, president of the club, Mrs. F. Heath, John H. Seckler, Chester Neander, Leo Seitzer, E. D. Stacy, J. J. Pfaffberger and Marcus Godfrey.

Oneonta Club

Miss Katherine Cunningham, president of the club, has her home at Hotel Maryland, in Pasadena, and is looking forward to a week's vacation in Bellingham, Wash., where she will visit relatives. Later Miss Cunningham will go to Chicago where she will be at the Edgewater Beach Hotel until October.

New Address

Miss Emma Grassell, who has been making her home at Hotel Vista del Arroyo, on the hillside above the city, has moved to Hotel Maryand, in Pasadena, since her return from the Casa del Mar a few months ago, is now staying at Hotel Maryland until October.

Delightful Affair

Miss Violet Hart, chairman of the Pasadena committee for the Hollywood Revue, will have a large tea at Hotel Vista del Arroyo on the 11th inst., in honor of Mrs. Leland Atherton, Irish, Mrs. Gertrude Bent, Mrs. John Boyce Smith and Raymond Britz, officials of the association. In addition to the house guests Mrs. Alice Coleman, Batchelder, Mrs. H. A. Everett, Mrs. Charles McCullough, Mrs. Alexander Hyman, Mrs. Cecil B. De Mille and Mrs. Ethel Storror, Mrs. Evelyn Batchelder and Mrs. Everett will be seated over the tea table in the Spanish patio.

Sandy Spinach

The reason most people have said in the past that they hate to eat spinach, roots and all, is that they soak spinach, roots and all in cold water. If the roots and bad spots are removed under the cold water faucet and then only the leaves are covered with cold water, it is a different process. Add a tablespoonful of salt to the water and let stand several hours. Then soak up and down in the fresh water and lift into another vessel for cooking. The roots will be no sand to worry about.

Memory in Envelopes

If you seal your letter and find you have written on the back, take the small end of a wooden clothespin holder and insert under the right-hand end of the flap of the envelope. Then start to roll the pen around the clothespin until you reach the other end. It will usually work and save addressing a new envelope.

WEB NOW OFFICIAL SET

Bogart Station to Entertain President Coolidge

Temporary Power Increase Already Arranged

Special Two-Hour Broadcast for KJH Studio

By DR. RALPH L. POWER
Officials of radio station WEBC, operated by the Lakes Broadcasting Company at Superior, Wis., are feeling exceedingly superior, having been designated by the Federal Radio Commission as the only broadcasting station for President Coolidge during his vacation at Brule. In order that the President may be assured of adequate radio reception, the commission has given the station a temporary increase in power from 250 to 1,000 watts for evening broadcast during the summer months.

It is emphasized by officials of the commission that the action taken in this case is the exception to the rule of trying to change frequencies or to increase power pending its reallocation of stations as required by the law. However, President Coolidge is well known to be not only a man of many far, but also many fine hobbies which are shared by Mrs. Coolidge, and much of the time during the long summer evenings will be spent either in witnessing the many productions of the motion picture industry or in listening to the radio.

While the President will depend upon station WEBC for regular programs, it is quite likely that he will be in the near-by lakeside town many evenings if he desires to "fish" for them.

ELARGED ORCHESTRA

The symphonies, overtures and stylized compositions of some of the foremost composers in the realm of music will go out over the air from KJH, the Don Lee station, which is owned by the Lakes Broadcast Company, which has been one of the leading institutions of the Pacific Coast for more than thirty-five years, puts on a two-hour musical program every night at 9 p.m.

The twenty-four piece Don Lee Little Symphony Orchestra, under the direction of Arthur Kay, will be the feature of the broadcast, while Ivan Schubert, tenor, will sing. Odeon Miss, Odeon Rumba, coloratura, will sing. The Bell Ensemble from "Lakme," Fritz De Bruin will sing. "The Cavatina" from "Faust," and Dr. Carl Omeron will sing "The Flower Song" from "Carmen." There will also be soloists.

Orchestral features will be "Aida," "The Jolly Roger," "Jewels of the Madonna," "La Paloma," "Dance of the Apparitions," "The March of the Guards," "Divo," "Jubilee," "Dancers," while "Tannhauser's March" will conclude the two-hour broadcast with orchestra and a vocal ensemble.

NEW MORNING PROGRAM

The broadcast is being done in honor of the opening of the new home of the stations tomorrow morning in connection with which there will be a public reception. Because of the broadcast, KJH shifts "The Cartoonist's Hour," featuring Robert Wildsack, from its regular time to 9 p.m. and adds a half-hour presentation between 7:30 and 8 o'clock. For the occasion Wildsack will present some brief but colorful radio cartoons.

A new Thursday feature starts on KJH at 8:30 p.m. "Mother,"

"Mother" Spenser, who is mother to hundreds of disabled veterans, goes on the air to read a series of inspirational and educational features to the veterans in the three government hospitals. This will be a regular feature at this hour.

The readings are primarily for more than 300 blind veterans who are in the hospitals at Sutroville, Olive View and San Francisco.

Thursday being Flag Day, a series of programs will be broadcast during the day in harmony with the spirit of the occasion.

BOYS HEAR CATHOLIC EDUCATOR

Brother Leo Gives Talk on Graduation Exercises at Cathedral High School

Brother Leo, Ph.D., Catholic who is a teacher and professor of literature at St. Mary's College, Oakwood, delivered the principal address at the graduation exercises of the Cathedral High School for Boys, 204 North Spring Street, on Friday evening. Thirty-three young men who received their diplomas from the hands of Rev. Mr. John J. McCarthy of Pasadena, Rev. Mr. John J. Conwell, and Rev. Mr. J. C. Broderick.

The greatest things of life can be purchased by money, he said. "If you are material in heart, you may pile up the rich Henry Ford, and still be poor. Measures of your success must not be in the ledger of your bank, but in another, greater. Brother Leo spoke to the boys before the assembly of the Catholic High School.

LONG-WANTED LIQUOR SUSPECT CAPTURED

Lewis A. Crank, indicted months ago on a charge of conspiracy to violate the National Prohibition Act by smuggling quantities of liquor into the state, was arrested yesterday on West Adams Avenue by Deputy United States Marshal. Crank was indicted at the time that Col. Leo A. Strother, then assistant dry administrator, was similarly arrested. Seven others were indicted, some of whom have been arrested and sentenced.

FLYERS DIE IN DESERT CRASH

Barstow Garage Owner and Mechanic Killed

Plane in Nose Dive Drops 200 Feet to Earth

One Killed Instantly and Other Dies in Hospital

BARSTOW, June 13.—An early-morning airplane ride over the Mojave Desert, ending in a crash between here and Victorville, resulted in the deaths of two men to-day.

Carlo Arendis, 25 years of age, automobile mechanic, was killed instantly, and Fulton E. Slaton, 26 years of age, garage owner and amateur pilot, sustained broken legs and arms and internal injuries which resulted in his death this afternoon in the Victorville hospital.

The men took off at 4:30 a.m. flying over the desert east of here. They were returning when a plane, which had turned downward and plunged 200 feet to the earth crashing in sagebrush near the Mojave river bottom. Arendis was dead when spectators reached the plane. Slaton, with both legs and arms broken, was unconscious. He was rushed here for emergency treatment and later removed to the Desert Air Hospital at Victorville.

An inquest will be conducted by Deputy Coroner Daniels to determine if the man had been flying for several weeks, and up until the crash had not experienced any accidents.

Leader Picked by Republicans at Crown City

PASADENA, June 13.—Youth emerged triumphant last night when a group of young Republicans led by City Director N. J. Shupe succeeded in electing Allyn Barber, local attorney, president of the Pasadena Republican Club. Barber defeated Judge George E. Waldo, veteran leader of the G.O.P. in this city.

Judge Waldo, present vice-president, was nominated for president by Mr. Oster, while Mr. Shupe placed Barber's name before the club. Shupe declared it was "time the younger men took the reins of the organization." The older men should be content to work back and act as consultants, Shupe said.

No bitterness marked the meeting and Barber's subsequent action in appointing Judge Waldo as chairman of a committee to select delegates to the Ninth County District conference was expected to heal what wounds were left from the battle. The district conference will be held here in the Shakespeare Clubhouse on the 19th inst.

Police Hunt Man as Wife Tells Attack

PASADENA, June 13.—Deputy sheriffs today were looking for August L. Martel, Talbert butcher, who escaped in the automobile of his estranged wife, Mollie Martel, after he is asserted to have choked her in a struggle at his home yesterday.

Mrs. Martel, according to her story to Deputy Sheriff Harry E. Carter, had demanded he come to do his washing and ironing, although they had separated and she was living at Huntington Beach with her father, John Weston. Weston, who lives in a small house they engaged in a quarrel and, according to the officers, Mrs. Martel seized an axe and started to attack her husband. He wrested it from her grasp and in the scuffle, Mrs. Martel was roughly handled, she said.

She screamed, and the call for help brought an employee of the Talbert slaughterhouse to the scene, whereupon Martel, it is said, leaped into his wife's car and fled. He has not been seen since, the officers stated.

Crews Ready to Protect Forest

MONROVIA, June 13.—Organization of fire-fighting crews to be available on short notice has and will be effected, according to reports made last night at a session of the Angeles Forest Protective Association held at the Hotel Mountain Inn, west of Monrovia, and other foothill cities from La Crescenta to Pomona will be efficiently protected in case of forest fires this summer by the organizing of fire crews.

Protective work will be carried out in the Saugus district, Santa Anita, San Gabriel and Fish canyons, as well as other mountain areas, beginning July 1. George C. Clegg, Forest Service agent of Angeles National Forest, announced.

Members of the association passed a resolution requesting the county forestry department to install special pumps for use in fighting forest fires.

MRS. MILLIKAN AGAIN DRAMA LEAGUE LEADER

PASADENA, June 13.—Mrs. Robert A. Millikan, wife of the chairman of the executive board of the California Institute of Technology, was re-elected president of the Pasadena section of the Drama League of America today.

The officers elected are:

Mrs. William B. Munro, Miss Eleanor M. Bissell and Mrs. Alton S. Clark. Miss Elizabeth Conner was named corresponding secretary.

BONDS ASKED FOR SCHOOLS

Electors of Alhambra High School and Elementary School Districts to Pass Upon \$1,675,000

ALHAMBRA, June 13.—Voters of the high and elementary school districts here will go to the polls Friday to decide the fate of bond issues amounting to \$1,675,000. Two issues are on the ballot, one of \$1,475,000 for the high school district and the other of \$200,000 for the elementary school district.

The high school issue calls for the erection of a new senior high school plant on the South Sixth-street site, now owned by the district and used partly as an athletic field. The purchase of additional acreage at this location is also planned. At some future time it is proposed to develop this new school plant into a junior college.

The high school bond issue also provides for the purchase of the Garvey intermediate school, an addition to that site, its development into a junior high school and also the purchase, if funds permit, of a new site for Gabriel for a new junior high school.

The elementary bond issue provides for the purchase of new school sites in the Emery Park section of Alhambra and in Monterey Park, both of which are to be developed later, and for the purchase of additional acreage for four existing elementary schools.

A campaign for the bonds has been waged vigorously by the schools and by the various organizations which are indorsing the issue.

A parade of school children, with bands and drum corps, was staged in the business district.

Considerable opposition to the bonds has been in evidence in San Gabriel, part of the high school district.

The girl was said to have wrenched an iron rod from a sink and to have hit the matron when she was hit with an iron rod in the hands of Rose Nelson, 15 years of age, who was being held in custody for the killing of her relative in San Francisco, it was reported at the Sheriff's office.

The girl was said to have been hit with an iron rod when spectators reached the plane. She was unconscious. She was rushed here for emergency treatment and later removed to the Desert Air Hospital at Victorville.

An inquest will be conducted by Deputy Coroner Daniels to determine if the girl had been flying for several weeks, and up until the crash had not experienced any accidents.

Former Editor Heads G.O.P. at Glendale

GLENDALE, June 13.—A. T. Cowan, realty dealer and former newspaper publisher, was elected president of the Greater Glendale Republican Club at the annual meeting of the organization last night in the Woodrow Wilson school, succeeding H. V. Adams.

In accepting the presidency Cowan asserted that California today has the opportunity to write its name on the history of the nation by sending one of its citizens to the White House, and he pledged himself and the organization to work for the election of Herbert Hoover, if, as seems certain, the Republican nomination is given him as its standard-bearer at Kansas City.

At the same time the club also selected delegates and alternates to the conference of the Republicans of the Ninth Congressional district at which the election of Herbert Hoover as standard-bearer was to be held on the 15th inst.

In the reappointment of the membership of the Republican County Central Committee at the August primaries, when the number will be reduced from twenty-seven to fifty, John R. McPherson, chairman of the committee in Glendale, advocated that the local clubs refrain from endorsing any candidates for the committee prior to the election. He insists that any Republicans who desire to be elected to the committee must do so without being restricted by the selection being limited to the number of candidates allowed to each subdivision of the county.

PITZER STEPS FROM LOAN GROUP POST

POMONA, June 13.—Russell K. Pitzer, attorney and financier, today resigned his position as attorney for the Pomona Home Builders' Loan Association, which position he has held continuously since it was organized in 1923.

Pitzer stated that his resignation was due entirely to pressure of his private enterprises which practically demand his entire time, although he will remain with the association until his successor is appointed.

The board of directors announced that A. L. Hirschman, manager of the committee in Glendale, advocated that the local clubs refrain from endorsing any candidates for the committee prior to the election.

San Fernando Apricot Pack Record Seen

SAN FERNANDO, June 13.—The Fernando Canning Company will start the season pack of apricots this week, according to L. F. Toon, superintendent, with prospects of an unusually good year. Between 300 and 400 persons will be employed in the pack operation.

Toon said that the early maturing of the fruit and a record pack is anticipated as the State's peach crop is the largest in history, Mr. Toon said.

The apricot crop, Toon said, is about the same as last year and present indications are that it will not be as high as well last year. The pack operation is expected to be 600,000 cases at the local cannery. Prospects for the peach crop indicate a surplus, according to Toon. There are perhaps enough for 160,000 cases, which will be distributed among 14,000,000 cases, he said.

The board of directors announced that A. L. Hirschman, manager of the committee in Glendale, has been selected to succeed Pitzer as legal adviser.

NEW FACTORY IS TO LOCATE IN VAN NUYS

SHERMAN, June 13.—Following efforts of the industrial department of the Los Angeles Chamber of Commerce a new factory is to be constructed in the south part of the city park were approved by the City Council last night. First steps were taken when Mayor Thayer appointed a committee of three to work with the department for the selection of the new committee, composed of Prof. Oscar Selling, Mr. J. Milton Steinberger and W. R. Humphries. "We will make a report to the Council at an adjourned session on the 19th instant.

It is stated that ultimately 200 persons will be employed. The company already has orders for 40,000 cases of the lights, which are of a type strapped to the head such as used by miners and other workers needing full use of both hands.

G. M. HERSHNER NEW ODD FELLOWS HEAD

VAN NUYS, June 13.—Oleene M. Hershner, was elected Noble Grand of the Van Nuys Odd Fellows' lodge, following the semiannual election here. Other officers are Stanley De Armond, Vice-Grand; J. A. Hererin and J. L. Hershner, secretaries; James J. Cullen, Treasurer; and J. A. Low, Trustee. Edward P. Harris was the retiring Noble Grand. The new officers will be installed in July.

LEADERS ON VISIT

CHINO, June 13.—Chino post of the American Legion and the auxiliary were joint hosts to two outstanding figures in California Legion affairs at last night's semiannual meeting of the international council. They were James K. Flak, department adjutant, and Allen Bixby, past department commander. Superior Judge Frank A. Leonard of San Bernardino county was a guest.

MRS. MILLIKAN AGAIN DRAMA LEAGUE LEADER

PASADENA, June 13.—Mrs. Robert A. Millikan, wife of the chairman of the executive board of the California Institute of Technology, was re-elected president of the Pasadena section of the Drama League of America today.

The officers elected are: Mrs. William B. Munro, Miss Eleanor M. Bissell and Mrs. Alton S. Clark. Miss Elizabeth Conner was named corresponding secretary.

GOVERNMENT OFFERS LAND UNDER WATER

SANTA BARBARA, June 13.—In order to clear title to property near Goleta Slough, the United States Court of Appeals there has been an injunction issued by the paving companies to the city to stop the paving of the 107th street water bond issue election.

The issue will cover building of new swimming pool and bathhouse on city property on East Grand View, averaging a cost of \$100,000.

According to figures assembled by Street Superintendent R. M. Gray, the paving companies will be paid \$150,000 for the paving of Verdun Avenue for valiant services as a machine gunner in driving the Germans back into, and then out of, Belieu Woods. He is the only veteran of the Second Division living.

The citation is inscribed in French. The medal is hung from a red ribbon and bears upon one side the head of a soldier, and upon the other a facsimile of the coat of arms of Verdun. France's name also bears an inscription in one of two books of gold placed within a memorial to the veterans of all nations who participated in driving the enemy out of Verdun. The books are to be given to the city of Verdun.

According to figures assembled by Street Superintendent R. M. Gray, the paving companies will be paid \$150,000 for the paving of Verdun Avenue for valiant services as a machine gunner in driving the Germans back into, and then out of, Belieu Woods. He is the only veteran of the Second Division living.

LAND OF UNION

AT HARBOR

Companies

Stock Exchange

New Rates for Handling

Cargo Charged

Union Leases Matter

for Investigation

Said by union labor

to get a foothold

in the Harbor through

the unionized seafarers

and the operating association

was to make ready

to meet the Harbor Commission

in order to allow outside

trading cargo at the

harbor a similar attempt

through the efforts of

the companies bringing

cargo in on the harbor

and the port.

An attorney, say-

ing the importers in

and business and

representatives ap-

pealed to the harbor board

that the ten or twelve

companies operating at

the port have no right to han-

dle cargo at the

harbor.

He declared it

was his duty to handle freight

and cargo coming to

the port.

He stated that he

had no right to han-

dle cargo at the

harbor.

He said he had no right to han-

dle cargo at the

harbor.
